When a Star reporter saw Harvell in a cell at the sixth precinct his face was covered with blood, and the several wounds on his face he said were made by Speaks. He said he remembered having cut

Near Cabin John Run.

Empty Laudanum Bottle Found Near By-Name of C. E. Ritts on Watch Case.

The body of a white man, supposed to be that of C. E. Ritts of Baltimore, was found yesterday morning about 10 o'clock lying on a hill just east of Cabin John run and several hundred yards north of the Conduit road. The discovery was made by two little children, who were collecting wild flowers, and who came across the body. They told their father of the occurrence, and he, investigating, found the body cold in death. Through him Deputy Sheriff William Emprey was notified, and the latter took harge of the remains.

The bedy of the man was lying in a natural position, with the hands crossed upon the breast. Near by on the ground was a boat tomorrow morning. In the company, two-ounce bottle, bearing the label of laudarum and the name of Quandt Bros., 124

drop of the fluid remained in the bottle,
from which it appeared the contents had
been properly labeled. The finding of the
poison immediately labeled to the conditions of the strength of the stren poison immediately led to the conclusion that it was a case of suicide. In one of the pockets of the dead man was found a halfpint bottle of whisky, bearing the name of Georgetown saloon keeper. The bottle

was only about half emptied.

The dead man was perhaps thirty-two
years of age and rather slenderly built. The height was about five feet ten inches, and the weight estimated to be about 180 pounds. The face was of medium com-plexion, adorned with a dark mustache and the head was covered with black hair. The

The shoes bore the trade mark of Williams Brothers 209 East Baltimore street, Baltimore, Md. He also wore a high turned-down collar, and a small blue and white striped club

Deputy Embrey searched the body in the nope of finding some clue which would ead to the identity of the deceased. The only thing which supplied any information was a small imitation silver watch, inside the cover of which were scratched som; marks, from which it was inferred that the deceased was named C. E. Ritts. In addition to this, a small red pocket book, empty; several keys, a little book and two \$1 bills were found. The coupon of a round-trip ticket from Baltimore to Washington, bearing date of May 19, was also found. This, coupled with the fact that the name of Baltimore business men appeared on the laudanum bottle and shoes impression that the man had

BIG FIRE IN DAWSON CITY, Estimated That City Has Suffered a Loss of \$4,000,000.

A dispatch from Victoria, B. C., yesterday says: The main portion of the city of Dawson was destroyed by fire on April 26, causing a loss of \$4,000,000. In all 111 buildings, including the Bank of British North America, were burned. The news was brought down by L. S. Hume, a son of Mayor Hume of Seattle; J. Toklas and a third

perilous trip. Toklas reports that the fire occurred in the very heart of the business center of the city, near the opera house on the water front, and, driven by a strong north wind, destroyed everything in its way on that street down to and including Donahue & Smith's establishment. The fire then took in all of the water front buildings abreast of the same blocks. It crossed the street, burned through and spread over to 2d street, converting to ashes the principal

The fire consumed everything from Timmons' Royal Cafe down to opposite the Fairview Hotel. The flames spread with such rapidity that the citizens appeared panic-stricken and unable to save anything in the way of furniture, goods and clothing.

The fire was caused by a fruncen woman upsetting a lamp in a notorious house. None of the big warehouses of the Alaska Commercial Company or the North American Trading and Transportation Company was touched by the fire, so there will be no shortage of provisions, even if the lakes was touched by the fire, so there will be no shortage of provisions, even if the lakes should not open before the middle of June, which is now predicted. The heaviest losers by the fire are Messrs.
